### **Housing and change** *Allison Ferris*

New ideas and projects come with many challenges for everybody involved. Sometimes what seems like a positive step forward to some can feel threatening or impossible to others. The process of growing affordable housing involves more than the mortar and bricks of constructing new homes. It also means engaging with our members and residents to ensure they feel part of the change and support the outcomes, which ultimately may affect their homes too. Join us to discuss how to engage productively with everyone in your housing community when it comes to the impact of change.
